DOCKETED

NOV 10 2014

Dear Chairman Stump and Commissioners,

As a small business owner here in Arizona, I know that the summer heat can wreak havoc on profits. High utility bills can cut into profits, and business owners may struggle to keep afloat. I believe that energy efficiency and Arizona's energy efficiency standard is a viable option for Arizona business owners to save money.

I understand that in order to implement the standard, ratepayers will likely pay more initially to see the positive effects on later energy bills.

Please move forward with the energy efficiency standard.

Sincerely,

Jennifer Kossmussen for Aunt Stump's Reminders  
6220 E Cave Creek Rd  
Phoenix, AZ 85331
